

# Web Developer-Social Media

To be immediately considered for this role, please submit resume and immediate follow up with a call to 650-685-4423.

Telecommuting is for local candidates. At this time, we are not accepting H-1 or non US residents without Citizenship or Green Card

We have an immediate need for a Web Developer to work on back end development and some front end UI for slick start up that is launching nationwide this fall. The basis of the initial work will be working with existing code and database and translating the hard copy development specs and design drafts into functional working social media environment. This is a great opportunity to get your foot in the door for current and future development projects as we grow.

We are looking for a team player with the ability to be an individual contributor and a team player. You should be sociable, able to sell your ideas and the company product. You surely are efficient, fast and reliable Team Player that has at least 3-5 years experience in web development and design. The preferable candidate would have a background in a start up, Social Media, Social Networking, eCommerce type company and must be familiar with online Accounting principles, Advertising skills, websites and application builds. Apps building is a big plus

## Technical Skills:

- \* Familiar and built sites with Social Media, eCommerce and Real Estate a big plus
- \* Programming skills in SQL, VBscript, jQuery, XHTML, CSS, Flash, etc.
- \* Strong Web Design and creative, clean development skill.
- \* ISP supports these languages and SSL security.

## Preferred

- \*Moonlighter type to start
- \* Local candidate preferred as we will need you in the office to think-tank at least 2 days per week.
- \*Team Player, Communication skills and Entrepreneurial skills are a must.
- \*The ideal candidate will have set up and worked with payment gateways, post forums, and social networking sites, payments, advertising, social media, forums, messaging, etc.
- \*Must understand business and marketing concepts that correspond to our client database.
- \*Setup reports for new clients, recurring
- \*Web Management and Web Content skills are a must.

You must be able to create Web pages have an eye for UI and graphic design and work with an existing database that will gather customer and order information for the services that we want to transfer into requests, and you must be able to process information and business ideas quickly and efficiently.

However, if you would like more information about this role and the overall end product, please submit resume and follow up with a call for an immediate interview.
